

JURI RAUS

15 May at 1505 hours he called agin' to say he had been thinking abo t things and wondered if he could still have the showing of the film if HEINE was picked up on Saturday. I told him it was a matter out of our jurisdiction now and that activity in the future would be handled by "the other organization you know of which does such things". I told him I could predict nothing but that all information had been made available to them. He was told to cooperate fully with them if he was approached but to remember not to involve [ ] or his organization and to remember not to make reference to matters which [ ] had mentioned to him but only to state those facts which he could logically explainx source-wise.

He then asked whether HEINE should stay at his home and I indicated that if I knew what he knew I might thi k twice about it unless specifically asked to do so and since [ ] had not felt that Juri could gather much it depended on "the other organization". Juri feels that he will not have Heine at his home on Friday and will think it over regarding Sunady night weighing the varicus equities he has at stake as leader of the para-military organ of Estonians.

Juri was told that [ ] would probably be chekking with him by Saturday morning but that if anything of an emergency nature or important nature arose he should call this number and ask for [ ]
